# DHAWAL WANI

SOFTWARE ENGINEER

+91 9422076443 | dhawalwani09@gmail.com | | |

Software Engineer with **1+** year of experience in web development using **JavaScript, React.js**, and **TypeScript**. Skilled in **PixiJS 2D rendering**, GSAP animations, REST API development and integration, and backend development with **Node.js** and **Express.js**. Familiar with Git, debugging, and Agile workflows.

## SKILLS

**Programming Languages:** JavaScript (ES6+), **TypeScript**, Python, SQL
**Frontend Technologies**: React.js, **PixiJS**, HTML5, CSS3, Material UI, GSAP, 2D rendering
**Backend Technologies**: Node.js, Express.js, REST APIs, Cron Jobs, Express Middleware
**State Management:** Redux Toolkit, RTK Query
**Database**: PostgreSQL, Sequelize ORM, MySQL, Database Migrations
**AI-Assisted Development**: GitHub Copilot, Agentic Development Workflows
**Debugging & Development Tools:** Chrome DevTools, Postman, VS Code, Jira
**Methodology:** Agile, Scrum, Sprint-Based Development

## PROFESSIONAL EXPERIENCE

### Software Engineer | Jul 2025 – Jul 2026

***Product: Unifi — Financial, Asset & Modem Management System (Arcades machine management)***
***React.js · Node.js · Express.js · PostgreSQL · Sequelize ORM · Material UI***

- Developed reusable **React.js** components for **financial reconciliation dashboards** and business workflows.
- Built and maintained RESTful APIs with Node.js, Express.js, and PostgreSQL, implemented RBAC, request validation, **Intercard integration**, and **automated revenue synchronization** with cron jobs.
- Used **Redux Toolkit** and **RTK Query** for API integration, state management, and efficient data fetching and synchronization between React components and backend services.
- Created a **Copilot-based agentic development workflow** using structured Markdown instructions for codebase analysis, planning, implementation, testing, documentation, and **RCA with human verification**.
- Resolved production issues using **Chrome DevTools, Postman**, application logs, and SQL queries, documented RCA and technical changes in Jira.

### Apprentice | Nov 2024 – Jun 2025

***Product: AIRVISION — Real-Time Air Quality Monitoring System***

- Contributed to a public-facing web application displaying real-time Air Quality Index (AQI) data by location, collected from IoT sensor kits deployed on plants. Gained hands-on exposure to full-stack development, version control, and Agile feature delivery in a production team environment.

## PERSONAL PROJECT

**DHAWAL.OS — Interactive Pixel-Art Developer Portfolio | React.js, TypeScript, PixiJS**

- Developing an interactive, game-style portfolio using PixiJS for **real-time 2D rendering** and React for UI components, featuring character movement, camera controls, collision detection, animated interface panels, and keyboard/touch interactions for desktop and mobile.

**NexCRM — Lead Nurturing & Management Platform | TypeScript, Material UI, PostgreSQL, Sequelize ORM, Nodemailer, JWT**

- Developed a multi-tenant CRM featuring role-based access control, JWT authentication, REST APIs, behavior-based lead scoring, automated email sequences, and rule-based lead assignment.

**FocusGuard — Real-Time Computer-Vision Focus & Distraction Monitor | Python, OpenCV, Ultralytics YOLO11n, MediaPipe Face Landmarker, NumPy, Pygame**

- Built a real-time computer-vision application for distraction and drowsiness detection, featuring temporal filtering, state classification, alerts, and focus analytics.

## EDUCATION

- **MCA** — Institute of Industrial and Computer Management, Pune | 2023–2025 | **8.46 CGPA**
- **BCA (Science)** — Indira College of Commerce and Science, Pune | 2020–2023 | **9.01 CGPA**
